 - a. Please TAPE the entry form to back of photo. Do NOT use staples or paper clips. It is recommended that you place the photograph, with the taped entry form and CD with digital file into a clear plastic sleeve protector. This helps keep your entry organized and protected from finger prints and other debris.
4. Entries may consist of prints 5" x 7" (minimum) up to and including 8" x 12" and should NOT be mounted.
5. **All entries must be accompanied by a completed entry form** including a release for both the photographer and the photograph's subject(s).

7. Each entry will be judged for its ability to tell a story relevant to the high school, junior high or middle school experience; its composition and artistic qualities; and its technical quality.
8. Contest winners will be notified by August 21, 2011 and subsequently published in a photo contest publication. The decision of the judges is final. The sponsors in their discretion reserve the right to reject entries or not publish photographs deemed offensive, in poor taste, or which do not comply with the rules to the satisfaction of the sponsors.
9. Entries will not be returned.
10. Void where prohibited.
11. Prize is not transferable.
12. All taxes on prizes are the sole responsibility of the winners.

Photo Submission Tips

1. Submit prints on 8" x 12" or 8" x 10" professional photo paper (**no photo copies or laser printouts**). Small prints tend to get lost next to larger ones during judging.
2. For all categories, print quality, composition and exposure are important.
3. Crop your prints carefully before entering. Think in terms of impact when cropping.
4. Send in prints free of technical flaws. Dust, scratches, fingerprints and low resolution digital prints usually result in inferior prints that distract from the quality of your image.
5. Edit your images before submitting. Sending in multiple copies of the same image or similar images is not a successful technique. Edit to your single best image of a subject. Ask for opinions from other photographers and your adviser or photography teacher.
6. Consider the stopping power of your images when submitting pictures. In photography contests, judges will be stopped by powerful images just as readers are. Look for pictures with good actions, reactions and emotions, interesting lighting, peak action, unusual and different situations and storytelling moments.
7. Software should only be used to enhance the technical aspects of the image and NOT to alter image content. If computer software is used to alter the content of the image captured by the camera, those images are considered illustrations and should only be entered in the "Illustration" category. The following techniques belong in the "Illustration" category: using filters, altering colors, adding/removing objects or people, combining photos together. If the image wasn't captured with the camera, it most likely belongs in the "Illustration" category.
